To: The IRS, Nonprofit Division,

The nonprofit group previously known as North Santiam Arts League Inc. has recently had an influx of new members and a change of some of its Board of Directors. This new group of members has revitalized the organization. All amendments and new information that reflect changes that have been voted in by the members and the Board of Directors is enclosed as you have requested. The changes that have been made only reflect our need to reorganize and streamline the group and do not in any way change the goals and purposes for which this organization was created. We strive more than ever to bring the local arts directly into the community and educate the public about the arts.

During this change, a review of all past legal documents and financial records began. Our status with you of unable to locate was discovered and we hope that you can issue us a new letter of standing that states our current name and status as a nonprofit 501 ( c ) ( 3 ) and then our group can move on to truly be an asset to this community. Also enclosed are our three-year financial report of our revenue and a letter of good standing with the Oregon State Corporate Division. Please review all documents and contact me immediately if you need any more information or have any questions. Please accept our apology for this inconvenience.

Sincerely,

Leila Ann Whitlock-Hauth
